

Lawn Applicator Job Description

Overview:

We are seeking a dedicated Lawn Technician to join our team. The ideal candidate will have a passion for outdoor work and specifically making lawns beautiful, green, and weed free.

This position's main focus will be fertilizing lawns and treating lawns for weeds and pests using a Z-Spray machine.

Responsibilities:

- Perform routed lawn treatments for our customers' homes.
- Measuring and mixing skills
- Operate power tools and equipment for various tasks
- Assist with other landscape maintenance and hardscape projects
- Follow and Track route using documentation daily
- Communicate with customers about contracted programs, applications, and answer customer questions.
- Manage self and schedule around weather and application conditions.

Experience:

*Required to Have or Obtain (paid training) a Wisconsin Pesticide Applicator License 3.0 Turf and Landscape License within one year of hired date.

* Required is a valid - insurable driving License.

Preferred experience:

- Z- Spray experience
- Prior experience in lawn care or landscaping is preferred but we are also willing to train.
- Knowledge of mechanical equipment and tools used in landscaping
- Ability to perform tasks such as snow plowing during winter months is a plus
- Experience in garden maintenance and tree trimming is beneficial

Join our team as a Lawn Applicator to showcase your skills and contribute to creating beautiful outdoor spaces.
